

KLove is a true inspiration to me and many others who share the love of Christ. These inspirations are filled with stories and songs of people and artists, who care for others. I have a two-hour commute to work, which allows me to find encouragement in my daily life. KLove serves me as a listener in a way that no other radio station can.

Christians rely on KLove to hear of upcoming events and news in one's community. Parents listen to KLove because it is a station that is safe for the whole family to hear.

KLove has provided me with information that allows me to be a better father and citizen. KLove helps people reflect on positive thoughts. The public is in need of hearing what KLove has to offer. The message of love they share is acceptable to all.
